Comedy has called and Agnes Ayres, perhaps best known for her portrayal of the leading feminine role in Valentino's "The Sheik," is working for Hal Roach. Her first "milkmaid" (as the press agents say) release will be "Evelyn's Letters." Miss Ayres also played in Valentino's last film, "The Son of the Sheik," in which she was the wife of the desert chieftain.

He discovered that four animators, two inkers, three tracers, and one cameraman are employed at the Sullivan studios in New York. Sullivan and four assistants do the original pencil work, which is then inked in by studio inkers. From 250 to 200 drawings are made daily by each of these five men. Tractors fill in non-moving portions of the

Clara Bow, Paramount's possessor of Mrs. Elmer Galt's now famous "H," announces after a study of the records of a Los Angeles Court of Domestic Relations in connection for her role in "Children of Innocence" that "ninety per cent of the divorces are to be blamed upon the unfaithful or the dissatisfied husband."

# STALIN ADOPTS TROTSKY'S PLAN TO FIX BUDGET

New Financial Program for Soviet Government Has Old Tax Ideas

Moscow, Mar. 17.—Leon Trotsky has once more been put upon the political shelf, but the publication of the Soviet Union budget project for 1927-28 reveals that once more he has political influence. Joseph Stalin, has adopted Trotsky's plan as his own platform.

Thus the wily Georgian has again put into practice the method by which he has succeeded in mastering the Communist Party and with it the control of the government of the Soviet Union. This, the method of crushing the opposition and then adopting anything good they may have had to suggest, has also been the practice of the Bolsheviks since they came to power in 1917.

Three of the principal points in Trotsky's program, the increase of taxation on the peasants, the decrease of government expenditure on the peasants, and the increase of government credits to industry, are incorporated in the new budget projected by the Commissariat of Finance.

All three measures will have the effect of benefiting the city proletariat at the expense of the peasants. This was the battle cry of Trotsky during his long drawn and bitter fight with Stalin and the majority of the Communist Party Central Committee. On this issue Trotsky was kicked out of the Political Bureau and degraded to the ranks. Now Trotsky's ideas are blessed with official recognition, and if the ideas prove effective in practice, the group in power naturally gets the credit.

The budget for next year will amount to 4,700,000,000 roubles, or about \$2,350,000,000, which is 720,000,000 roubles more than it was this year, an increase of about 17.4 per cent. Direct taxes will return 2,217,000,000 roubles, indirect taxes and income from sources other than taxation will return 2,381,000,000 roubles, and income from government loans will amount to 100,000,000 roubles.

Direct taxes will be 17.9 per cent more than they were last year, and this increase is largely due to the heightened taxes on prosperous peasants. On the outgoing side, appropriations for industry are to be increased 150 per cent, from 200,000,000 roubles this year to 500,000,000 next year. But agricultural appropriations will be cut to 145,000,000 roubles, which is much less than this year's.

**Favorable Report**  
How much of this optimistic budget will be fulfilled in reality remains to be seen. Its cheerful tone is matched, however, by the report of Kuybyshev, chairman of the Supreme Economic Council, over the results and future hopes of Soviet industry.

Kuybyshev reports that Soviet industry produced goods to the value of 4,200,000,000 pre-war roubles in 1925-1926, or 7,176,000,000 present day roubles. In 1924-25 the production was valued at 5,000,000,000 present day roubles, which indicates a 40 per cent increase in production this year. This increase, he points out, brought 520,000 new workers into industry.

For the coming year he predicts an 18 per cent increase of industrial production, and an increased employment of 144,000 more. If the government's plans work out, it will spend a total of 900,000,000 roubles for new industrial equipment and factories.

# Sinclair to Appeal Conviction in Contempt of Senate

## JURY VERDICT HAS JAIL AND FINE PENALTY

Fifteen Ballots Required to Bring Decision, Action Is Precedent

Washington, Mar. 17.—Convicted on four counts charging contempt of the United States Senate, Harry F. Sinclair, multimillionaire oil magnate and a political boss, today was sentenced to a year in jail and a fine of \$10,000.

HARRY F. SINCLAIR

A jury in the supreme court of the District of Columbia has found the oil man guilty last night after deliberating eight hours and ten minutes. The law carries a mandatory penalty of one month to one year in the District of Columbia jail and a fine of \$100 to \$10,000.

Sentence will be pronounced by Justice William H. Taft, who presided at the trial, within four days, or as soon as the defense attorneys have prepared their appeal to carry the case to the district court of appeals.

Sinclair's counsel have asserted they will fight the case to the United States Supreme Court.

First Since 1896

Sinclair's conviction is the first on record in federal courts for contempt

of the senate since 1896. The case came out of his refusal to answer certain questions before the senate subcommittee on March 22, 1934, hearing upon his cooperation with former Secretary of the Interior Albert B. Fall for the Teapot Dome, Wyoming, naval oil reserve lease of Apr. 7, 1922.

Fifteen ballots were required to bring about the verdict in the jury room with the count standing 11 to 4 in conviction from the first to the fourth ballot. The conviction could easily have been a foregone conclusion had Sinclair not insisted on his right to answer questions in all similar proceedings.

Justice Hitz, in his instructions, confined the jurors to a consideration of four basic facts—was Sinclair sworn before the committee, did he swear, was he sworn, and did he refuse to answer certain questions. These facts were admitted by both sides from the outset.

The defense was based almost entirely upon technical grounds, challenging the authority of the committee to ask the unanswered questions, and attacking the propriety of the questions.

A second criminal proceeding growing out of the Teapot Dome leasing is set for trial in the district supreme court April 25, when Sinclair and Fall are to be tried for conspiracy to defraud the government in the leasing negotiations.

**JUNIOR CLASS PLAY IS PLANNED AT PLEASANT**

Fourteen members of the Junior Class of Pleasant Township High School are to take part in a play, "Rainbow Inn," to be given by the class at the school at 8 o'clock Friday night. The play is a comedy in three acts, several comic characters and a negro hotel porter furnishing the humor. The theme of the play is based on the contrast between the country folks and the vacationers sojourning at "Rainbow Inn." Special music has been arranged.

## CROARKIN CONVICTED

HAROLD J. CROARKIN

Chicago, Mar. 17.—Life imprisonment was the sentence imposed by a jury last night for Harold Croarkin's murder of 9-year-old Walter Schmitz, Dec. 17.

The jury in Chief Justice William Lindbergh's courtroom arrived at the verdict at 7:27 o'clock, after deliberating two hours and twenty minutes.

Five ballots were cast by the jurors before final agreement was reached. The first vote, on the

question of the defendant's sanity, found all 12 men agreed that Croarkin is sane.

The second vote, on the matter of punishment, showed a division of eight jurors favoring life imprisonment and four anxious that the death penalty be inflicted.

That the jurors had little difficulty in adjusting their differences of opinion is indicated in the brief time required for the taking of the other three votes and arrival at a verdict.

## Fies-av Boys Gloom After Fire Destroys Club House

GLOOM pervaded among a number of boys living on Fies-av and vicinity today as the result of their "clubhouse" having been destroyed by fire early this morning.

The youngsters, who had established headquarters in a shed at the rear of the A. H. Craft home, 263 Fies-av, left a fire in their wake following a meeting last night and shortly after midnight the structure burst into flames.

The fire department was summoned but too late to save the

building, which was completely wiped out. The flames also destroyed the club's furnishings. The equipment was not destroyed, however, and the total loss is figured at \$50.

Firemen preserved the shed from spreading to other buildings.

# Kenton Reds Drop Final Game to Cleveland Rosenblums

## LOSE MATCH IN FIRST HALF OF CLOSING TILT

Visiting World's Champions Score 36 Points to Opponents' 24

Kenton, Mar. 17.—The Kenton Reds completed their basketball season last night by playing the Cleveland Rosenblums on the armory floor here. The local cagers were defeated 36 to 24.

In spite of the fact that the Reds were strengthened by the addition of stars from Lima, Wapakoneta, and Marion they were unable to stem the world's champion basketball quietest. Unbright and Cohen were brought from Lima, Baron from Marion, and Arnold from Wapakoneta.

The hosts took the lead in the first period running up a safe score before the Reds knew what was happening. At the end of the half the visitors led 21 to 6. It was not until the final period was the Reds able to show anything against the Cleveland team. In this period they scored 15 points to the Rosenblums' 1.

**Preliminary Game**  
St. John's leaders of the Hardin County Sunday School basketball league defeated Mt. Victory High School in a fast game by a score of 18 to 15. The local team pulled the game out of the fire in the last period. It was the eleventh straight game the Saints have won this season.

Kenton's Ohio Power Cagers made it three straight over the Lima Ohio Powers winning by a score of 18 to 12. The contest gave Kenton the power championship of Hardin and Allen Counties.

### TRAINING CAMP CHATTER

St. Petersburg, Fla., Mar. 17.—While Joe, Joseph Rogers, owner of the Yankees, has signed outfielder Ben Murdett to a two-year contract, he declares that Hugh Bennett can "hold out for life" before the club will meet his salary demands. The star southpaw is said to be asking \$20,000 a year for two years.

Applegate scored the first point of the game, putting his team in the lead with a free throw. The Marauders were never threatened, and were never overtaken by their last opponents.

Marion's offensive power was the test set in the tournament and the guarding of Budge Compton and Ray Miller left nothing to be desired. In addition to holding down Van Eppe, former Kenon College star, who has been in action here on one occasion this season, Compton engaged four field goals and two charity markers.

Doyle, formerly with the Steam Shoverts, was the Mt. Vernon star and shining light on the offensive for that outfit. Doyle, Compton, Applegate, and Munroe played excellent basketball on both offense and defense. While Miller did not attempt to make a buck for the Dairies, he was a tower of strength for the Dairies, who won the Mt. Vernon men launched their attack.

Reichenbachs Win  
The Reichenbach Fords last night defeated the Robert-Leon of Columbus, 24 to 19, in the third round, becoming eligible for play in the semi-finals.

Bliss College, starting Wes Griffin, former Isaly man and a resident of Marion, will meet Fountain Springs, runners up in the tournament last year, in the first semi-final game at 8 o'clock Friday night, in the Aquinas gym. Bliss is hoped to win the contest, going into the finals next Tuesday night with the winner of the Dairy game.

### FIRST INDOOR BALL GAMES AT SHOVEL

Electricians Defeat Welders and Machinists Trim Apprentices

The Electricians defeated the Welders, 27 to 22, and the Machinists trimmed the Apprentices, 13 to 8, in the first games of the Marion Shovel game, which was held at the Shovel gym.

A large crowd turned out for the first session of the season, glad of a change of sport after several months of basketball. The games were fast and interesting. The second part of the first round of games will be played Friday night in the Shovel gym.

Except for Burleigh Gimes, the human salivary gland, the pitchers will be the same as last year. Kent Greenfield, always a slow starter, will be pitching good baseball by the first of June; Hugh McQuillan, always a rapid starter, is being prevailed upon to do so; and the water would venture to say that it is as strong as it was last year.

First Base Weak  
It has been weakened, beyond all doubt, at first base where Terry will appear instead of the departed Kelly. It is stronger at second because with the mercurial Frisch replaced by Rogers Hornsby, who looks slower to me, although he is hitting well and obviously is saving himself. However, the loss of Ross Young in right field would hurt any club and the Giants are no exception. Further than that a club with three untied catchers making up the entire staff of receivers is not exactly any man's certainty.

### M'Graw Claims Smarter, Faster Ball Club Despite Rumors of Dissension Now

Manager of Giants Gives Ideas on Other Teams in League, but Says Nothing About Ed Roush; First Base Is Weakened by Absence of Kelly

BY DAVIS J. WALSH  
ST. PETERSBURG, Fla., Mar. 17.—Who is the dumbest guy on the Giants ball club?

That is neither an important nor personal question because the Giants, themselves, playing this end of the grape fruit circuit today, really would like to know. According to members of rival teams with whom the writer talked, so many Giants have nominated other players with the outfit for this doubtful distinction that it is a fast becoming apparent that most of them are very dumb or all of them are very mistaken.

This condition, plus a general irritation against Ed Roush for his failure to join the club when offered a \$20,000 contract, would seem to indicate that a disquieting condition is developing in the Giants' camp.

Another Story  
However, Manager John M'Graw has another story to tell.

"It's not the best club that ever was organized," he said. "It has its little weaknesses here and there, which I don't care to elaborate upon. All I want to say is that I have a smarter, faster club than last year, with more punch and a sounder defense and I think it is good enough to win."

"The other contender? Well, you must figure the Cardinals, Pirates and Reds, for one thing, and the Cubs will be dangerous. In fact they may turn out to be the team we will have to beat. Anyway I'll say that the club that wins the pennant will have to beat us."

Nothing About Roush  
M'Graw declined to comment in any way on Roush's absence from the camp but his intimates made no secret of the fact that John has taken great umbrage over the matter, as his index of the team in general. Roush, they say, has been offered \$20,000 for the season as compared with the \$19,000 he wanted from the Reds; yet, he has ignored both the offer and the man who made it.

Of course, like a drug clerk who hasn't what you want, the ball club doesn't live that doesn't have "something just as good" with which to forget an absent star. The something in this case is Melvin Ott, the seventeen-year-old catcher of last year who is the eighteen-year-old centerfielder this year. They say that Ott will be in the lineup every day by the first of June, Roush or no Roush.

The Giants have plenty of outfielders in camp but not all of them are good. In fact, the writer would venture to say that it is an open question whether the club is as strong as it was last year.

First Base Weak  
It has been weakened, beyond all doubt, at first base where Terry will appear instead of the departed Kelly. Another Story  
However, Manager John M'Graw has another story to tell.

"It's not the best club that ever was organized," he said. "It has its little weaknesses here and there, which I don't care to elaborate upon. All I want to say is that I have a smarter, faster club than last year, with more punch and a sounder defense and I think it is good enough to win."

"The other contender? Well, you must figure the Cardinals, Pirates and Reds, for one thing, and the Cubs will be dangerous. In fact they may turn out to be the team we will have to beat. Anyway I'll say that the club that wins the pennant will have to beat us."

Nothing About Roush  
M'Graw declined to comment in any way on Roush's absence from the camp but his intimates made no secret of the fact that John has taken great umbrage over the matter, as his index of the team in general. Roush, they say, has been offered \$20,000 for the season as compared with the \$19,000 he wanted from the Reds; yet, he has ignored both the offer and the man who made it.

Of course, like a drug clerk who hasn't what you want, the ball club doesn't live that doesn't have "something just as good" with which to forget an absent star. The something in this case is Melvin Ott, the seventeen-year-old catcher of last year who is the eighteen-year-old centerfielder this year. They say that Ott will be in the lineup every day by the first of June, Roush or no Roush.

The Giants have plenty of outfielders in camp but not all of them are good. In fact, the writer would venture to say that it is an open question whether the club is as strong as it was last year.

First Base Weak  
It has been weakened, beyond all doubt, at first base where Terry will appear instead of the departed Kelly. It is stronger at second because with the mercurial Frisch replaced by Rogers Hornsby, who looks slower to me, although he is hitting well and obviously is saving himself. However, the loss of Ross Young in right field would hurt any club and the Giants are no exception. Further than that a club with three untied catchers making up the entire staff of receivers is not exactly any man's certainty.

Except for Burleigh Gimes, the human salivary gland, the pitchers will be the same as last year. Kent Greenfield, always a slow starter, will be pitching good baseball by the first of June; Hugh McQuillan, always a rapid starter, is being prevailed upon to do so; and the water would venture to say that it is as strong as it was last year.

PLAY SECOND ROUND OF VOLLEYBALL MATCHES  
Clark, Murphy and Coulter Captain Winning Teams at Y. M. C. A.

John H. Clark's volleyballers last night defeated W. C. Brown's crew, 37 to 26, in the regular business men's volleyball games on the Y. M. C. A. courts. Frank Murphy's team trimmed Cunningham's outfit, 26 to 22, and Coulter's men defeated Hildebrandt, 17 to 16.

It was the second round of games played since the organization of the new league.

Another round of games is scheduled for next Wednesday.

### UPAN ADAM

"My old buddy, M'Graw, knows that the way to win a pennant is to take the ball by the horns."

Here's the infield

The infield, as every one knows, will be Terry, Hornsby, Jackson and Lindbergh, with Edie Farrell as utility man on the right side. Andy Cohen went to Buffalo with a great option exercisable on 24 hours notice, and Andy Reese, up from Memphis and Bentley ready to relieve Terry at first base, Reese also may alternate with George Harper, ex-Phillie, in right field, M'Graw having determined to use an alternating outfield against right and left hand pitchers.

Do Clothes Make This Man?

[A Disputed Matter Settled for All Time]

Take a good look at the picture above. There's your answer. Faultless evening clothes are powerless before a face like that. No, sir, clothes do not make the man—

—And neither does a fancy label in red, blue or pink make a can of malt. It's the man inside the clothes and the malt inside the can that counts. What's inside a Puritan Malt? Choicest No. 1 barley, blended with the Genuine Imported Bohemian Hops. And concentrated in that can is Puritan's many years of experience in producing Richness, Strength and Flavor.
